MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL INFORMATION

To the Shareholders of Caledonia Mining Corporation:

Management has prepared the information and representations in this interim report. The Unaudited Condensed Consolidated Financial Statements of Caledonia Mining Corporation ("Company") have been prepared in conformity with International Financial Reporting Standards ("IFRS") and in accordance with International Accounting Standard 34 ("IAS 34") Interim Financial Reporting, where appropriate, these statements include some amounts that are based on best estimates and judgment. Management has determined such amounts on a reasonable basis in order to ensure that the Unaudited Condensed Consolidated Financial Statements are presented fairly, in all material respects.

Financial information used elsewhere is consistent with that in the Unaudited Condensed Consolidated Financial Statements. The Management Discussions and Analysis (MD&A) also includes information regarding the impact of current transactions and events, sources of liquidity and capital resources, operating trends, risks and uncertainties. Actual results in the future may differ materially from our present assessment of this information because future events and circumstances may not occur as expected.

The Company maintains adequate systems of internal accounting and administrative controls, consistent with reasonable cost. Such systems are designed to provide reasonable assurance that relevant and reliable financial information is produced.

Management have concluded that as a result of the relatively small size of the Company's head office finance department personnel, the Internal Controls over Financial Reporting ("ICFR") assessment concluded that there were limited resources to adequately segregate duties and to permit or necessitate the comprehensive documentation of all policies and procedures that form the basis of an effective design of ICFR.

In order to mitigate the risk of material misstatement in the Company's Unaudited Condensed Consolidated Financial Statements, the Company implemented additional cash flow review and monitoring controls at head office on a monthly basis and as part of their monitoring and oversight role the Audit Committee performs additional analysis and other post-closing procedures. No material exceptions were noted based on the additional procedures and no evidence of fraudulent activity was found.

The Board of Directors, through its Audit Committee, is responsible for ensuring that management fulfills its responsibilities for financial reporting and internal control. The Audit Committee is composed of three unrelated directors. This Committee meets periodically with management and the external auditor to review accounting, auditing, internal control and financial reporting matters.

These Condensed Consolidated Financial Statements have not been reviewed by the Company's auditors.

The Unaudited Condensed Consolidated Financial Statements for the period ended March 31, 2012 were approved by the Board of Directors and signed on its behalf on May 07, 2012.

S. E. Hayden S. R. Curtis

President and Chief Executive Officer Vice-President, Finance and Chief Financial Officer

1 Reporting entity

Caledonia Mining Corporation is a company domiciled in Canada. The address of the Company's registered office is Suite 1201, 67 Yonge Street, Toronto, Ontario M5E 1J8 Canada. The unaudited condensed consolidated interim financial statements of the Company as at March 31, 2012 comprise the Company and its subsidiaries (together referred to as the "Group" or "Company" and individually as "Group entities"). The Group primarily is involved in the operation of a gold mine and the acquisition, exploration and development of mineral properties for the exploration of base and precious metals.

2 Basis for preparation

(a) Statement of compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34 *Interim Financial Reporting* and do not include all the information required for full annual financial statements.

These condensed consolidated interim financial statements were authorised for issue by the Board of Directors on May 7, 2012.

(b) Basis of measurement

The condensed consolidated interim financial statements have been prepared on the historical cost basis except for the following item in the statement of financial position:

• available for sale financial assets are measured at fair value

(c) Presentation currency

These condensed consolidated interim financial statements are presented in Canadian dollar, which is the Company's functional currency. All financial information presented in Canadian dollar has been rounded to the nearest thousand.

3 Use of estimates and judgements

Management makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

In preparing these condensed consolidated interim financial statements, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements as at December 31, 2011.

(in thousands of Canadian dollars)

4 Significant accounting policies

The accounting policies applied by the Group in these condensed consolidated interim financial statements are the same as those applied by the Group in its consolidated financial statements as at and for the year ended December 31, 2011.

5 Financial risk management

Overview

The Group has exposure to the following risks from its use of financial instruments:

- Currency risk
- Interest rate risk
- Credit risk
- Liquidity risk
- Commodity price risk

The Group's exposure to each of the above risks and the policies adopted to manage and mitigate such risks are the same as those applied by the Group in its consolidated financial statements as at and for the year ended December 31, 2011.

The Group is exposed in varying degrees to a variety of financial instrument related risks by virtue of its activities. The overall financial risk management program focuses on preservation of capital, and protecting current and future Group assets and cash flows by reducing exposure to risks posed by the uncertainties and volatilities of financial markets.

The Board of Directors has responsibility to ensure that an adequate financial risk management policy is established and to approve the policy. The Group's Audit Committee oversees management's compliance with the Group's financial risk management policy.

The fair value of the Group's financial instruments approximates their carrying value unless otherwise noted. The types of risk exposure and the way in which such exposures are managed are as follows:

(a) Currency Risk

As the Group operates in an international environment, some of the Group's financial instruments and transactions are denominated in currencies other than the Canadian Dollar. The results of the Group's operations are subject to currency transaction risk and currency translation risk. The operating results and financial position of the Group are reported in Canadian dollars in the Group's consolidated financial statements.

(in thousands of Canadian dollars)

The fluctuation of the Canadian dollar in relation to other currencies will consequently have an impact upon the profitability of the Group and may also affect the value of the Group's assets and the amount of shareholders' equity.

As noted below, the Group has certain financial assets and liabilities denominated in foreign currencies. The Group does not use any derivative instruments to reduce its foreign currency risks. To reduce exposure to currency transaction risk, the Group maintains cash and cash equivalents in the currencies

used by the Group to meet short-term liquidity requirements.

Below is a summary of the cash and cash equivalents denominated in a currency other than the Canadian dollar that would be affected by changes in exchange rates relative to the Canadian dollar. The values are the Canadian dollar equivalent of the respective asset or liability that is denominated in a currency other than the Canadian dollar.

	2012	2011
	\$	\$
Cash	15,728	9,210
Bank overdraft	-	(430)
Trade receivables	3,099	3,474
Trade payables	(3,556)	(3,413)

(b) Interest Rate Risk

Interest rate risk is the risk borne by an interest-bearing asset or liability as a result of fluctuations in interest rates.

Unless otherwise noted, it is the opinion of management that the Group is not exposed to significant interest rate risk as it is debt free apart from short term borrowings utilized in Zimbabwe. The Group's cash and cash equivalents include highly liquid investments that earn interest at market rates. The Group manages its interest rate risk by endeavouring to maximize the interest income earned on excess funds while maintaining the liquidity necessary to conduct operations on a day-to-day basis. The Group's policy focuses on preservation of capital and limits the investing of excess funds to liquid term deposits in high credit quality financial institutions.

Cash held in foreign banks is subject to the interest rates ruling in those particular countries and this can have an effect on the results of the Group due to higher interest rates being paid in African countries compared to Canada.

(in thousands of Canadian dollars)

Fluctuations in market interest rates have not had a significant impact on the Group's results of operations.

(c) Concentration of Credit Risk

Credit risk is the risk of a financial loss to the Group if a gold sales customer fails to meet its contractual obligation. Current gold sales are made to Rand Refineries in South Africa and the payment terms are stipulated in the service delivery contract and are adhered to in all instances.

(d) Liquidity Risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due.

The Group manages its liquidity by ensuring that there is sufficient capital to meet its likely cash requirements, after taking into account cash flows from operations and the Group's holdings of cash and cash equivalents. The Group believes that these sources will be sufficient to cover the anticipated cash requirements. Senior management is also actively involved in the review and approval of planned expenditures by regularly monitoring cash flows from operations and anticipated investing and financing activities.

Since the inception of dollarization in Zimbabwe, certain insurance cover has been reinstated. The Zimbabwean operations are now covered for Public Liability risk, Assets all risk and comprehensive cover on all motor vehicles. Further insurance cover is currently under review.

6 Capital Management

The Group's objectives when managing capital are to safeguard its ability to continue as a going concern in order to pursue the mining operations and exploration potential of the mineral properties.

The Group's capital includes shareholder's equity, comprising issued common shares, contributed surplus, accumulated other comprehensive income, accumulated deficit and bank loans.

The Group's primary objective with respect to its capital management is to ensure that it has sufficient cash resources to maintain its ongoing operations, to provide returns for shareholders, accommodate any rehabilitation provisions and to pursue growth opportunities.

As at March 31, 2012 the Group is not subject to externally imposed capital requirements and there has been no change with respect to the overall capital risk management strategy.

Recoverability

The recoverability of the carrying amount of the South African and Zambian mineral properties (if not impaired) is dependent upon the availability of sufficient funding to bring the properties into commercial production, the price of the products to be recovered, the exchange rate of the local currency relative to the US dollar and the undertaking of profitable mining operations. As a result of these uncertainties, the actual amount recovered may vary significantly from the carrying amount.

16 Equity

Share capital

Authorised

Unlimited number of common shares of CAD of no par value Unlimited number of preference shares of CAD of no par value.

(in thousands of Canadian dollars)

Issued	Number of common shares	Amount
December 31, 2011	500,549,303	196,163
March 31, 2012	500,549,303	196,163

Common shares and preference shares

The holders of common shares are entitled to receive dividends as declared from time to time, and are entitled to one vote per share at meetings of the Company. Holders of preference shares receive a non-cumulative dividend per share at the Company's discretion, or whenever dividends to common shareholders are declared. They do not have the right to participate in any additional dividends declared for common shareholders.

Preference shares do not carry the right to vote. All shares rank equally with regard to the Company's residual assets, except that preference shareholders participate only to the extent of the face value of the shares.

Investment Revaluation Reserve

The investment revaluation reserve arises from the valuation of investments at fair value through other comprehensive income.

Translation reserve

The translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign operations with functional currencies that differ from the presentation currency.

Contributed surplus

The contributed surplus comprises the cumulative net change resulting from share based payments.

17 Earnings per share

Basic earnings per share

The calculation of basic earnings per share at March 31, 2012 was based on the profit/ loss attributable to common shareholders of \$7,111 (2011: \$1,894), and a weighted average number of common shares outstanding of 500,549,303 (2011: 500,169,303), calculated as follows:

(in thousands of Canadian dollars)

Weighted average number of common shares

(In number of shares)	2012	2011
Issued common shares at January 1	500,549,303	500,169,303
Weighted average number of common shares at March 31	500,549,303	500,169,303

Diluted earnings per share

The calculation of diluted earnings per share at March 31, 2012 was based on the profit attributable to common shareholders of \$7,111 (2010: \$1,894), and a weighted average number of common shares and potentially dilutive shares outstanding of 510,032,939 (2011: 542,709,303), calculated as follows:

Weighted average number of common shares

(In number of shares)	2012	2011
Weighted average number of common shares (basic) at January 1	500,549,303	500,169,303
Effect of dilutive options	9,483,636	42,540,000
Weighted average number of common shares (diluted) at March 31	510,032,939	542,709,303

18 Defined Contribution Plan

Under the terms of the Mining Industry Pension Fund ("Fund") in Zimbabwe, eligible employees contribute a fixed percentage of their eligible earnings to the Fund. Blanket makes a matching contribution plus an inflation levy as a fixed percentage of eligible earnings of these employees

19 Share-based payments

Description of the share-based payment arrangements

At March 31, 2012 the Group has the following share-based payment arrangement:

Share option programme (equity-settled)

The Group has established incentive stock option plans (the "Plans") for employees, officers, directors, consultants and other service providers. In accordance with these programmes, options are granted at the market price of the shares at the date of grant.

Terms and conditions of share option program

The terms and conditions relating to the grants of the share option program are as follows; all options are to be settled by physical delivery of shares. Under the current plan, the maximum term of the options is 5 years. Under the Plans, the aggregate number of shares that may be issued will not exceed 10% of

(in thousands of Canadian dollars)

the number of the shares issued of the Group, and as at March 31, 2012, the Group has the following

options outstanding:

Number of Options	Exercise Price	Expiry Date
	\$	
9,450,000	0.07	April 24, 2012
1,300,000	0.07	May 31, 2012
13,320,000	0.07	March 18,2013
1,000,000	0.07	July 1, 2013
210,000	0.07	April 29, 2014
500,000	0.07	Mar 23, 2014
16,460,000	0.13	Jan 31, 2016
300,000	0.07	May 11, 2016
42,540,000	0.093	

Disclosure of share option program

The continuity of the options granted, exercised, cancelled and expired under the Plans during 2012 and 2011 are as follows:

	Number of Options	Weighted Avg. Exercise Price \$
Options outstanding and exercisable at December 31, 2010	32,580,000	0.07 ⁽¹⁾
Granted	16,460,000	0.13
Forfeited or expired	(6,500,000)	0.07
Options outstanding and exercisable at December 31, 2011	42,540,000	0.093
Options outstanding and exercisable at March 31, 2012	42,540,000	0.093

⁽¹⁾ As a result of the re-pricing of the options in 2010, the weighted average exercise price was changed to \$0.07.

The vesting of options is made at the discretion of the board of directors at the time the options are granted.

Employee expenses

	2012	2011

Inputs for measurement of grant date fair values

The fair value of share based payments noted above was estimated using the Black-Schöles Option Pricing Model with the following assumptions for the years ended December 31, 2011 and 2010.

	2012	2011
Fair value of share options and assumptions		
Risk-free interest rate	-	1.1%
Expected dividend yield	-	Nil
Expected stock price volatility	-	60.47%
Expected option life in years	-	5
Exercise price	-	0.13
Share price at grant date	-	0.13
Fair value at grant date	-	0.067
Expected forfeiture rate	-	0%

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in the subjective input assumptions can materially affect the fair value estimate, and therefore the existing models do not necessarily provide a reliable single measure of the fair value of the Group's stock options.

The non-credit adjusted discount rates currently applied in the calculation of the net present value of the provision is 1.96% and 5% (2010 - 1.25% and 5%)

20 Provisions – (continued)

Site restoration

Site restoration relates to the net present value of the estimated cost of closing down the mine and site and environmental restoration costs, estimated to be paid in 2024, for Blanket, based on the estimated life of mine. Site restoration costs are capitalised to mineral properties at initial recognition and amortised systematically over the estimated life of the mine.

21 Trade and other payables

	2012	2011
	\$	\$
Other trade payables	3,513	3,087
Non-trade payables and accrued expenses	754	754
	4,267	3,841

The Group's exposure to currency and liquidity risk related to trade and other payables is disclosed in note 5.

The Directors consider the carrying amounts of trade and other payables as a reasonable approximation of their fair values.

22 Cash flow

Items not involving cash are as follows:

(i) The Group has entered into a management agreement with Epicure Overseas S.A. ("Epicure"), a Panamanian Group, for management services provided by the President. The Group is required to pay a base annual remuneration adjusted for inflation and bonuses set out in the agreement. In the event of a change of control of the Group, Epicure can terminate the agreement and receive a lump sum payment equal to 200% of the remuneration for the year in which the change occurs.

(in thousands of Canadian dollars)

(ii) On January 31, 2005, the Group entered into an agreement (the "Chairman's Agreement") with the Group's former Chairman for services as the non-executive Chairman of the board of directors of the Group. This agreement was terminated in December 2010.

25 Operating Segments

The Group's operating segments have been identified based on geographic areas.

The Group has four reportable segments as described below, which are the Group's strategic business units. The strategic business units are managed separately because they require different technology and marketing strategies. For each of the strategic business units, the Company's CEO reviews internal management reports on at least a quarterly basis. The following geographical areas describe the operations of the Group's reportable segments: Canada, Zimbabwe, South Africa and Zambia.

The accounting policy of the reportable segments is the same as described in note 4.

Information regarding the results of each reportable segment is included below. Performance is measured based on segment profit before income tax, as included in the internal management report that

(in thousands of Canadian dollars)

.....

are reviewed by the Group's CFO. Segment profit is used to measure performance as management believes that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

Major customer

Revenues from one customer of the Group's Zimbabwe segment represents approximately \$17,503 (2011: \$11,226) of the Group's total revenues.

26 Subsequent events

On February 20, 2012 Caledonia announced it has signed a Memorandum of Understanding ("MoU") with the Minister of Youth, Development, Indigenisation and Empowerment of the Government of Zimbabwe pursuant to which Caledonia has agreed that Indigenous Zimbabweans will acquire an effective 51% ownership interest of the Blanket Mine for a paid transactional value of US\$30.09 million on the following basis:

- 16% will be sold to the National Indigenisation and Economic Empowerment Fund;
- 10% will be sold to a Management and Employee Trust for the benefit of the present and future managers and employees of Blanket;
- 15% will be sold to identified Indigenous Zimbabweans; and
- 10% will be donated to the Blanket Gwanda Community Trust. Blanket will also make a non-refundable donation of US\$1.0 million to the Trust as soon as it has been established.

Caledonia will facilitate the vendor funding of these transactions (other than the 10% interest which will be donated to the Community Trust) which will be repaid by way of future dividends from Blanket.

Caledonia has undertaken to complete the implementation of all the components of the indigenisation transaction as soon as possible. The Government of Zimbabwe has agreed that implementation of the terms of the MoU will constitute full compliance by Blanket and Caledonia with the requirements of the Act

Pursuant to the above Caledonia signed agreements for the sale of 15% of Blanket Mine to a consortium of Indigenous Zimbabweans for a consideration of US\$11.008 million and the sale of 10% of Blanket Mine to the Management and Employee Trust for a consideration of US\$7.339 million. Caledonia will facilitate the vendor funding of these transactions which will be repaid by way of future dividends from

(in thousands of Canadian dollars)

Blanket. Outstanding balances on the facilitation loans will attract interest at a rate of 10% over the 12-month LIBOR. The timing for the repayment of the facilitation loans will depend on the future financial performance of the Blanket Mine.

Completion of the agreements is subject to several conditions precedent which include Caledonia receiving confirmation from the Government of Zimbabwe that implementation of the terms of the MoU constitutes full compliance by Blanket and Caledonia with the requirements of the Indigenisation Act and certain approvals from the Reserve Bank of Zimbabwe.

Caledonia has submitted identical agreements to the parties concerned regarding the remaining two transactions envisaged in the MoU i.e. the sale of a 16% interest to the National Indigenisation and Economic Empowerment Fund and the donation of a 10% interest to a Gwanda Community Trust, and awaits their respective responses.

Further details of the MoU are subject to a confidentiality agreement.

The above transactions are anticipated to be accounted for in accordance with IFRS 2, Share based payments, however an estimate of the financial statement effects is dependent on the finalisation of the various agreements related to the above transactions

During April 2012 9,450,000 options were due for expiry. Of these 5,500,000 were exercised at \$0.07 per share and the balance of 3,950,000 expired. A further 1,250,000 options which were due to expire in March 2013 were also exercised at \$0.07 per share.
